Dear Mr. Shajary:

We have received and reviewed your amendment to your plan of operations for your gypsum mine in Emery County and we have **determined that the amendment is incomplete**. The plan amendment should include maps showing the sequence of development and reclamation, plus a written description of the changes proposed. The proposed plan amendment included only a statement of enlarging the mine and increased production.

You may continue to operate within the currently disturbed area until a complete plan amendment is submitted and approved, with the understanding that no additional ground is to be disturbed until the amendment for the increased acreage is approved.

If you have any questions, please feel free to contact Neil Simmons of my staff at (801) 637-4584.

Sincerely,

**PENELOPE J. DUNN**
